We're here to help

Below are the benefits of becoming a member of TTAW: -

- Full visibility of upcoming courses and on-line booking
<http://ttaw.traineast.co.uk/>
- Access to training history – you can even add training completed with other training providers, so all your training records are in one 'easy to access' place.
- Access to certificate expiry notifications
- Advice and support on current legislation requirements, setting up training courses to encompass these.
- We maintain a database holding all training records for each member to enable us to keep track of each individual trainee (within your company).
- Reduced course prices on all training to members, this is currently £10 per person per course day (pppd).
- Each year we contact all of our members to talk through potential training needs for the future and run through our ever-increasing training programme.
